Q.2

What is Coronavirus and what are its symptoms?

Coronaviruses are a large family of viruses, some causes illness in people. Its symptoms in humans are

- 🤒 Fever
- 🤧 Breathing problem
- 🤧 Coughing
- 🤧 Tightness of chest
- 👃 Running Nose
- 🤯 Headache
- 🤒 Feeling unwell
- 🤒 Pneumonia
- 🩺 Kidney Failure

It can be difficult to identify the disease based on symptoms alone.
